Temitope Samuel Pamilerin

UI/UX designer with 3+ years of experience, skilled in Figma and Adobe XD. Passionate about creating intuitive, user-centered designs with a strong eye for detail.
Eager to learn, collaborate, and contribute to impactful projects in a dynamic team.

EXPERIENCE

UI/UX Designer - Contract role
ENSUS Academy
May 2026 - October 2026 - 6 months, Remote

Designed the ENSUS Academy website and the EASP student portal in Figma, taking both from wireframes to high-fidelity UI. Created consistent, brand-aligned screens and components that give students a clear, easy-to-use experience across the platform.

UI/UX Designer - Contract role
Caresync Expert- United Kingdom
Jan 2026 - March 2026 - 3 months, Remote

As a UI/UX Designer, collaborated with designers and developers to create intuitive and visually engaging interfaces for websites, ensuring alignment with brand guidelines.

UI/UX Product Designer
Freelancing
October 2024 - Present - 2 years, Remote

Worked closely with project managers and developers on various projects, including e-commerce apps, health tech apps, diabetes trackers, and real estate websites and so much more. Also did the UI design and UX research, enhancing usability and user experience through effective, visually appealing solutions.

Product Designer
Webverse
Aug 2023 - May 2025, Nigeria, Remote

Collaborated with designers, project managers and developers to design and deliver websites and apps for up to 20 clients across various industries. Played a key role in UI design and UX research, providing strategic insights that enhanced usability and ensured visually compelling, user-centric solutions.

UI/UX Design Intern
Tech A intern
Jan 2023 - June 2023 - 6 months

As a UI/UX Design Intern, collaborated with senior designers to create intuitive and visually engaging interfaces for web and mobile applications, ensuring alignment with brand guidelines. Conducted research on design trends and shared insights to support innovative project development.
